Complete Solution For Your School

Official School Management Software
(Designed and Developed by) Vaibhav
Infotech.

WHO WE ARE ?

School erp , an initiative of tomorrow's innovation by IOT Education infra with prime focus to deliver education through innovation,automatic and technology.School ERP had developed a state of the art technologies smart enviornment along with complete security and satisfication for all the schools , colleges, Universities and institution

OUR MISSION & VISION

VISION :- To provide a comprehensive and integrated online platform that simplifies and automates various administrative and academic processes within educational institutions.

MISSION :- To enhance operational efficiency by automating routine administrative tasks, such as attendance tracking, timetable management, fee collection, and grading, thereby allowing educators to focus more on teaching and student engagement.

WHY SCHOOL ERP ?

- ✓ School ERP software helps in efficiently managing various administrative tasks such as student admissions, attendance tracking, timetable creation, exam scheduling, grading, and report generation. It automates these processes, reducing manual effort and saving time for teachers and staff.
- ✓ School ERP software facilitates effective communication between teachers, students, parents, and administrators.
